## TOWN WARRANT

---

### THE STATE OF NEW HAMPSHIRE

[L. S.]

*To the Inhabitants of the Town of Fremont in the County of Rockingham in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at the town hall in said town on Tuesday, the 11th. day of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To hear the report of the budget committee and take such action as the town deems necessary.
3. To raise and appropriate such sums of money as deemed necessary for the following purposes: town charges, care of cemeteries, street lighting, support of poor, Old Age Assistance, maintenance of highways, and bridges, general expenses of highway department, the public library, and for Memorial Day.
4. To see if the town will vote to accept Town Road Aid on highways and appropriate \$274.14 for same.
5. To see if the town will vote to tar a piece of road beginning at the state highway by the home of the late Harrison B. Ellis and continuing  $\frac{1}{2}$  mile by the home of William Cole.

6. To see if the town will vote to pay over to the school district treasurer all monies now deposited in the Capital Reserve Fund as established for the building and equipping of a consolidated school, providing the school district shall vote to build such a school.

7. To see if the town will vote to raise and appropriate \$300.00 for the use of the Fremont Fire Department.

8. To hear the report of the Town Planning and Development Committee relative to a Town Ordinance and take such action as the town deems advisable.

9. To see if the town will vote to establish a town dump.

10. To see if the town will vote to authorize the selectmen to borrow money in anticipation of taxes.

11. To see if the town will vote to raise and appropriate the sum of three thousand dollars. Said sum to be added to the Capital Reserve Fund as established in 1944 for the building and equipping of a consolidated school. This article to apply if the school district does not vote to build a consolidated school this year.

12. To transact any other business that may be deemed necessary.

Given under our hands and seal, this       day of February  
in the year of our Lord nineteen hundred and forty-seven.

GEORGE A. BASSETT,  
JOHN E. ROBBINS,  
M. HERMAN SANBORN,  
*Selectmen of Fremont.*

A true copy of Warrant—Attest:

GEORGE A. BASSETT,  
JOHN E. ROBBINS,  
M. HERMAN SANBORN,  
*Selectmen of Fremont.*

## ANNUAL REPORT OF FIRE WARDEN

---

### HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—IT PAYS!

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New

Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fire are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this—

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES**—his efforts are only as effective as is the cooperation you give him!

*1946 fire record*

Number of fires .....	2
Acreage burned .....	less than one
Number fire permits issued .....	8

## SCHOOL WARRANT

---

### THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the School District in the Town of Fremont qualified to vote in district affairs:*

You are hereby notified to meet at the Fremont Town Hall in said district on the tenth day of March 1947 at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To hear the report of the building committee and take any action thereon.

10. To see if the School District will vote to build, erect and equip a centralized school building at a cost not to exceed Fifty Thousand Dollars (\$50,000), and to authorize the Building Committee, consisting of the School Board of the Town of Fremont and Harold L. Jones, George A. Bassett, Albert G. Fuller and William Butler, all residents of said Fremont, in connection with said construction to solicit bids from competent contracting firms, to accept the most advantageous bid or bids, to supervise the construction, to sign all contracts and other papers for and in behalf of the School District, to see that the contracts are carried out, to accept the project for the School District and to take any other necessary or desirable action in connection with such bids, contracts and construction.

11. To see if the School District will vote to borrow the sum of Thirty-five Thousand Dollars (\$35,000) and to issue and sell in connection with such borrowing notes or bonds of the School District of the Town of Fremont in the principal amount of Thirty-five Thousand Dollars (\$35,000), such notes or bonds to be issued pursuant to Chapter 72 of the Revised Laws of 1942 and any amendments thereto, payable exclusively from funds to be raised by taxation, to bear interest at a rate not to exceed four percent (4%) per annum payable semi-annually, to be payable in equal annual installments of Five Thousand Dollars (\$5,000) each year, the first installment to be payable one year after the date of said notes or bonds, to be sold for not less than par, the time and place of payment of principal and interest, the fixing of the rate of interest, the provisions for the sale of the notes or bonds, and all other matters in connection therewith to be left to the discretion of the School Board, subject, however, to the foregoing limitations.

12. To see if the School District will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000) to be used in connection with the construction of the centralized school building.

13. To see if the School District will vote to approve the action of the Building Committee in asking the General Court of New Hampshire for authority to exceed the debt limit of the School District.

14. To see if the School District will vote to authorize the School Board to sell the four one-room school houses now in use upon completion of the centralized school building at private sale or other method that the district may determine.

15. To transact any other business that may legally come before this meeting.

Given under our hands and seals at said Fremont this 14th day of February 1947.

ETHEL L. McINTOSH,  
EFFIE L. HOOKE,  
LAURENCE A. PETTENGILL,  
*School Board of Fremont.*

Balance on Hand as of June 30, 1946 (Treasurer's bank balance) .....	\$1,221.63

GEORGÈ E. BEEDE,  
*District Treasurer.*

## AUDITOR'S CERTIFICATE

---

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Fremont, of which the above is a true summary for the fiscal year ending June 30, 1946 and find them correct in all respects.

FLORENCE A. GEORGE,  
*Auditor.*

July 13, 1946.

## SUPERINTENDENT'S ANNUAL REPORT

---

February 1, 1947

*Good Citizenship tomorrow is based  
upon Good Schools today.*

*To the School Board and Citizens of Fremont:*

I am pleased to submit my fifth annual report as superintendent of your schools.

*Teachers and Finance:*

During the past year one of our greatest problems has been to maintain our teaching force. The usual factor of higher salaries elsewhere, plus the desire of some of the married teachers to remain at home since the ending of the war, have been the chief causes for the need for about twenty (approximately 50%) new teachers within the Supervisory Union. We have however, been fortunate to continue and in most instances improve our teaching forces.

Teachers' salaries is undoubtedly the number one school problem throughout the country today. It is anticipated that much higher salaries for teachers will not follow as a result of the present economic situation which is comparable to that which followed World War I but may continue after the crisis is over as a means of inducing more of the better high school graduates to look toward the teaching field as their chosen profession. The present low enrollment of prospective teachers in our teacher training institutions is indicative of an acute continued shortage for some years to come. From the state and federal levels of school finance, there is much indication that considerably more state and

possibly federal money will be available (without more control) for local units. Should this outlook become a reality, teachers' salaries and other necessary expenditures could be increased to a great extent without much if any increase in direct property taxes which are in many instances too high at the present time.

The bill proposed by our State Board of Education and now pending before the state legislature would increase the amount of state aid to local towns and cities throughout the state from around \$400,000 to \$2,080,000. If this proposal is adopted by the legislature, different individual towns within Supervisory Union No. 14 would receive from two to nearly four times as much as they are now receiving from state funds.

### *Social Studies:*

The three R's (reading, writing and arithmetic) continue to be the basic foundation upon which our whole education system is based but to them other important phases have been added. In the social science field, the study of geography and history continue to stress the relationships between all peoples and nations. As set forth as the key to the Constitution, adopted in London in Nov. 1945, of the United Nations Education, Scientific, Cultural Organization the following statement shows the need for continued consideration of other people and places. "That since wars begin in the minds of men, it is in the minds of men that defenses of peace must be constructed." In this atomic age, we are in the midst of one of the great revolutionary periods of history and upon our generation and its successors the task is imposed of discovering and organizing and establishing a multitude of new relationships among the peoples of this planet. In relation to this but under the title of Air Age Education the president of the National Education Association has recently stated "youth should develop a sense of personal concern for the solution of our problems brought about by aviation—all pupils have an obligation to study and,

so far as possible, to help solve the problems which the air age presents. Throughout our schools, children are becoming more aware of these problems through use of modern books, current publications and in some instances the use of motion picture machines and radios.

#### *Guidance:*

In order to more completely discover and develop the potentialities of each individual pupil for his own happiness and social usefulness, our teachers are attempting to cause each pupil to progress according to his own abilities. Promotions are determined on the bases of mental, physical and emotional development as well as of grade-achievement. Consideration is on the question of what appears to be for the best for each individual child. Standardized achievement tests were administered to children above grade two during the past year and mental ability tests are administered to each child at least twice during his school years. Results of these tests are of a great help in knowing what to expect of the child and to check his progress in comparison to other children within the same age and grade groups. The proficiency of our testing program is impeded in some instances by the lack of time on the part of teachers to correct and interpret the tests and in some instances because of lack of training of some teachers in the testing field.

#### *Books and Other Teaching Aids:*

We are continuing to purchase the newest books available for the various grades and subjects as the older ones become worn and outdated. An answer to the question "Why Don't We Get Our Books?" is found in the following quotation from Lloyd W. King, Executive Secretary of the American Textbook Publishers Institute. "It is true that schools opened in September of this school year with a shortage of text and reference books,—and because of this shortage of stock about 12½% of the school books ordered had not

been delivered." Some other reasons given for this situation are: (1) limited supply and increased demand for white paper from which books are made. (It is estimated that the demands for books of all kinds in 1946 is three times the 1943 volume of production.) (2) restricted pulp supply. (3) shortage of new machinery and therefore lack of press time. (4) strikes. Mr. King continues with estimates to the effect that, because costs are continuing to increase, textbooks prices will be July 1, 1947 40% higher than the 1942 prices. Within our area, we have renewed our book supply during the past two years to the extent that budgets for books will probably not be increased to a great extent for the coming year.

From the Twenty-fourth Yearbook of the American Association of School Administrators (1946) we quote "One lesson from the educational programs of the armed services should be emphasized. Audio-visual aids are vitally necessary in the educational equipment of a modern school. —Projection equipment, radios and phonographs are essential." The moving picture projectors in Newmarket and Epping are being used regularly. Several of our Schools are fortunate in having continued rise of radios, and victrolas.

Some of the greater weaknesses within our area and common to it at the present time are poor physical plants, educational and economic inefficiency in organization in some instances, lack of satisfactory playground areas and limited curricula in our high schools. The state aided vocational offerings at the Dover High School which are free—except for transportation—are being utilized by a few students within this area. Courses in vocational agriculture, home economics, commerce, mechanic arts and beauty culture are available at Dover to any high school student who wishes to elect them. These vocational courses, with other more usual high school subjects provide a full high school course, the completion of which entitles the pupil to a regular high school diploma.

"If youth are vocationally proficient and have earning capacity, as well as the broadening educational offering which help them in their social and civic performances in life, they are on the road to being good citizens and will be well equipped to make their contributions to society."<sup>1</sup>

### *Physical Fitness:*

One of the educational trends throughout the country is general improvement of programs to develop physical and mental health. For twelve years the school has a remarkable opportunity to join hands with other agencies in making physical fitness a major objective. Our school nurse, Mrs. Cooper, makes a careful examination of each child once each year and has a watchful eye for any physical weaknesses or signs of illness or disease during each visit to the school. Many of the defects are corrected through the good efforts of parents although in some instances no corrections are made. (This fact may be more specifically noted in the nurse's report which follows). More care should be taken by parents in follow-up work to prevent more serious situations at later dates. The organized inter-scholastic sports in the high schools are valuable moves toward our objective. More playground space in those communities where practically none exists at the present time is a need not to be overlooked. With the coming organization of housing facilities in some cases will undoubtedly solve the problems of such limited school playground areas—organic power is built in accordance with the age-old law of use which means "physical exercise."

Three major health factors; namely, sleep, rest, and nutrition are taught in health and science classes; the third mentioned is being further encouraged by the government through financial aid in purchasing of milk, donation of food, and, in many instances, donations toward purchases of lunch

---

<sup>1</sup> 1945 Yearbook American Association of School Administrators.

room equipment. As our school buildings are improved or renewed to include running water, refrigeration and cooking facilities we may be able to have a school lunch program in every school.

In Fremont the outstanding change in the organization of the schools has been the closing of the Pine School and the transportation of the seven children who would have attended that school to the village schools. Mrs. Blanche Gauthier, who had taught that school for several years accepted the position of teacher of grades three and four at the Bakie School in Kingston. In other schools, Miss Nancy Scripture of Keene and a graduate of Keene Teachers' College was selected to replace Mrs. Ramona Illsley Stevens at the Primary School. Miss Scripture had had two years of successful expert teaching the primary grades at Marlow, New Hampshire. Mrs. Dorothy Sargent of Danville, well known to many Fremont people and a teacher of many years of experience, replaced Miss Eleanor Morrill at the Grammar School, and Miss Lula Ball continues as the teacher of the South Road School. In the absence of our regular teachers because of illness, we have been fortunate to have been able to call on the following people to substitute during the current year: Mrs. Mary Balch of Durham, Mr. Burton Robbins of Exeter, Mrs. Barbara Bean of Fremont, Mrs. Martha Crosby of Chester and Mrs. Rachel Rosencrantz of Kensington. In October 1946, the Supervisory Union Music Committee selected Miss Prudence Hayes of Orono, Maine, to replace Miss Marion Foster as Supervisor of Music. Miss Hayes had had several years of experience in a similar position in the public schools of Old Town, Maine, and is continuing the good work in music in the public schools in the eight towns within this Union except Newmarket (which has its own supervisor), plus East Kingston and Sanborn Seminary. Miss Foster resigned in August, 1946 to accept a position as Assistant Supervisor of Music in Newburyport, Mass.; this change appeared to be a professional and financial advancement for Miss Foster.

The attitude of the children has continued to be generally very satisfactory and the schools are operating very effectively.

#### *New School:*

As instructed at the special School District meeting held on March 25, 1946, the building committee composed of members of the School Board, Albert G. Fuller, Harold Jones, George A. Bassett and William Butler have employed an architect (Maurice Witmer of Portsmouth) and prepared preliminary drawings and plans for a new four-room school house which, if so voted, will be erected on the lot of land and with the help of the \$5,000.00 donated by Mr. John Ellis in memory of his wife Mrs. Pauline B. Ellis. It will be located east of the intersection of highway Route 107 and Beede Hill Road and opposite the present village schools. Fremont, as is generally known, is badly in need of a new school house. In this day and age most of us certainly would not be satisfied to live in houses as outmoded as the present buildings where we are educating our children. It is hoped that money will be appropriated at the School District meeting on March 10, 1947 and that construction may get underway on a new centralized school which might be ready for use in the fall of 1947. According to present plans the new school will be a four-room, fireproof building with modern heating, lighting, ventilating and toilet facilities; it will include an office for the principal, a teachers' room and a lunch room with adequate kitchen and cooking facilities to make possible the serving of lunches. In order that the above mentioned progress could be made on plans during the past year, your building committee has had six meetings, each of which has indicated much thought and good judgment on the part of the members.

#### *Parent Teacher Association:*

On December 17, 1946, a preliminary meeting, attended by twenty people, was held at the Grammar School to dis-

cuss the advisability of organizing a Parent Teacher Association in Fremont. A second meeting attended by twenty-two people, was held on January 7, 1947 at which time the Fremont Parent Teacher Association was organized with the following officers elected: President, Maxine Osgood; Vice Pres., Charles Boyd; Secretary, Mrs. Walter Quimby, Jr.; and Treasurer, Mrs. Pauline Kimball. It is felt that this organization may do much in the future to further the general welfare of the children through closer relationship between parents, teachers and other citizens.

The attendance records have been good. The total of seventeen tardinesses is an unusually small number for nearly 100 children; 94.7% attendance is about the State average. The children who had a perfect attendance record are to be commended as well as are their parents.

In conclusion, your attention is directed to the following reports of the school nurse Mrs. Constance Cooper, R. N., and the music supervisor Miss Prudence Hayes.

Again I wish to thank the members of the School Board, the teachers, pupils and parents for their continued cooperation in carrying on and improving the work of education in our community.

The members of your School Board continue to work for the betterment of the school. "They are helping to build the future"—and according to a recent publication, "perhaps more than any other group, they have the opportunity to shape the future of America."

Respectfully submitted,

JONATHAN A. OSGOOD,  
*Superintendent.*

## REPORT OF MUSIC TEACHER

---

*To the Superintendent and the School Board of Fremont,  
New Hampshire:*

I hereby submit my first annual report as Music Supervisor:

People everywhere have come to recognize the strong educational value of music. Music when taught properly contributes to mental growth as much as any other study in the school curriculum. Therefore, modern schools include not only the technical aspects of music but also the establishing of listening habits in children.

The music program consists of ear-training, music appreciation and folk dancing. All of these branches of musical knowledge when grouped together form a sound basis for further enjoyment in later life.

In addition, to the musical program mentioned above, the Fremont schools will present a public performance in the form of an operetta. All children will participate. One of the chief values of such programs is the acquiring of ease, at an early age, to perform publicly. When this idea is carried out correctly great benefit is derived from such activities.

While the most progressive educators of today believe that singing is essential, they also believe that school music should mean something more than singing. A genuine growth in music means a gradual and progressive development. This growth is possible through the program described.

In conclusion, may I express my appreciation to all who have made this school year so pleasant.

Respectfully submitted,  
PRUDENCE HAYES

## HEALTH SUPERVISION

---

*To the Superintendent of Schools and School Board of  
Fremont, N. H.:*
